PHP

PROJECTS

project

(HTML, CSS, JAVACRIPT, REACT.JS)

- Designed and developed a responsive portfolio website using HTML5, CSS3, and media queries, ensuring compatibility across various devices and screen sizes.
- Implemented fluid layouts and flexible grids to optimize user experience and accessibility on desktop, tablet, and mobile devices.
- Integrated animations and transitions to create a smooth and engaging user interface, demonstrating proficiency in frontend development techniques.
- Ensured cross-browser compatibility of the portfolio website, testing and debugging across major browsers such as Chrome, Firefox, Safari, and Edge.
- Implemented SEO-friendly practices such as meta tags, semantic HTML, and optimized images to improve visibility and search engine rankings of the portfolio website.
- Incorporated structured data markup and sitemap generation for better indexing and crawling by search engines.
- Applied performance optimization techniques including minification of CSS and JavaScript files, lazy loading of images, and caching strategies to achieve fast loading times.
